SHAKE WELL BEFORE USING • AGITE BIEN ANTES DE USAR

For use in: Apartments, Attics, Basements, Garages, Homes, Pet Sleeping Areas, Rooms and Storage Areas.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. READ ALL DIRECTIONS COMPLETELY BEFORE USE. • Avoid contamination of food or feedstuffs. • For use only when building has been vacated by human beings and pets. Ventilate area for 30 minutes before re-entry. • For best results, treat all infested areas. Use one fogger for each 2,000 cubic feet (approximately 15.5 ft x 16 ft x 8 ft ceiling) of unobstructed area. Use additional units for remote rooms or where the free flow of fog is not assured.

PREPARATION: DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room 5 ft x 5 ft or smaller; instead, allow fog to enter from other rooms. ***Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.).*** Call your gas utility or management company if you need assistance with your pilot lights.

BEFORE YOU FOG: Remove or cover exposed food, dishes, utensils, surfaces and food-handling equipment. Shut off fans and air conditioners. Close outside doors and windows. Remove pets and birds but leave pets' bedding as this is a primary hiding place for fleas and must be treated for best results. No need to discard pet bedding after treatment. Cover or remove fish tanks and bowls. Leave rugs, draperies and upholstered furniture in place. This product will not harm furniture when used as directed. Open interior closet doors and cabinets of areas to be treated. Cover waxed wood floors and waxed furniture in the immediate area surrounding the fogger. Newspapers may be used.

For more effective control of storage pests, open all cupboard doors and drawers for better penetration of fog. Remove all infested foodstuffs and dispose of in outdoor trash.

For flea and tick control, thoroughly vacuum all carpeting and upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outdoor trash. Mop all hard floor surfaces.

READ ALL DIRECTIONS AND CAUTIONS BEFORE USING.

TO START FOGGING:

1. SHAKE FOGGER WELL BEFORE USE. Hold can at arm's length with top of can pointing away from face and eyes. Push down on finger pad until it locks. This will start fogging action.
2. Set canister in an upright position on a table, stand, etc. (up to 30 inches in height in the center of the area) and place several thicknesses of newspaper under the canister to prevent marring of the surface. Treat the whole dwelling using multiple units in homes with more than one level and numerous rooms. Leave the building at once.

DO NOT RE-ENTER BUILDING FOR TWO HOURS:
After two hours, open all outside doors and windows, turn on air conditioners and/or fans and let treated area air for 30 minutes before reoccupying. If additional units are used for remote rooms or where free flow of fog is not assured, increase airing-out time accordingly.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.
Pesticide Storage: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. **Pesticide Disposal and Container Handling:** Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. Causes skin irritation. Harmful if absorbed through skin. Do not get on skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-800-917-5431.

NOTE TO PHYSICIAN: Contains petroleum distillates — vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the Directions for Use on this label very carefully.**

Highly Flammable Ingredient
Ingrediente Altamente Inflamable

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

ALMACENAMIENTO Y ELIMINACIÓN

No contamine el agua ni los alimentos para personas y animales por medio del almacenamiento o la eliminación.

Almacenamiento del pesticida: Guarde en un lugar fresco y seco. Siempre guarde los pesticidas en su envase original. Guarde lejos de los alimentos para personas y de las mascotas. **Eliminación del pesticida y manipulación del envase:** ¡No lo perfore ni incinere! Envase no rellenable. No vuelva a usar ni a rellenar este envase. **Si está vacío:** Tírelo en la basura u ofrézcalo para reciclar, si existe esa opción. **Si está parcialmente vacío:** Llame a su servicio de eliminación de desechos más cercano para obtener instrucciones de eliminación.

DECLARACIONES PREVENTIVAS

RIESGOS PARA LOS SERES HUMANOS Y LOS ANIMALES DOMÉSTICOS

ADVERTENCIA. Causa irritación a la piel. Nocivo si se absorbe por la piel. Evite el contacto con la piel o la ropa. Lávese muy bien con agua y jabón después de manipularlo y antes de comer, beber, masticar chicle o usar tabaco. Quítese la ropa contaminada y lávela antes de volverla a usar. El uso prolongado o el contacto reiterado con la piel pueden causar reacciones alérgicas a algunas personas.

PRIMEROS AUXILIOS	
SI SE INGIERE:	• Llame inmediatamente a un centro de control de envenenamientos o a un médico. • No induzca el vómito a menos que así se lo indique un centro de control de envenenamientos o un médico. • No administre nada de líquido a la persona. • No administre nada por la boca a una persona que haya perdido el conocimiento.
SI ENTRA EN CONTACTO CON LA PIEL O LA ROPA:	• Quítese la ropa contaminada. • Lave inmediatamente la piel con abundante agua durante 15 a 20 minutos. • Llame a un centro de control de envenenamientos o a un médico para recibir instrucciones de tratamiento.

Cuando llame a un centro de control de envenenamientos o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto. Para obtener información sobre urgencias médicas o sobre accidentes con pesticidas, llame al 1-800-917-5431.

NOTA PARA EL MÉDICO: Contiene destilados de petróleo; los vómitos pueden causar neumonía por aspiración.

Mata estos insectos:

• Chinches • Pulgas • Escarabajos • Cucarachas • Moscas • Polillas voladoras • Jejenes • Piojos • Mosquitos • Hormigas faraonas • Lepismas • Avispas • Avispas con
• Huevos de pulgas • Larvas de pulgas • Insectos del arce • Tijeretas • Hormigas bravas • Gorgojos de los cereales • Avispones • Milpiés • Cucarachas de caño • Cochinillas • Cochinillas de la humedad • Garrapatas pintas amarillas

MODO DE EMPLEO

Se considera una violación a la ley federal usar este producto de una manera que no sea la indicada en la etiqueta.

LEA COMPLETAMENTE TODAS LAS INSTRUCCIONES ANTES DE USAR.

Evite contaminar los alimentos para personas o animales. • Para usar sólo cuando el edificio ha sido desocupado por los seres humanos y las mascotas. Ventile la zona durante 30 minutos antes de volver a entrar.

Para obtener mejores resultados, trate todas las zonas infestadas. Use un nebulizador por cada 2,000 pies cúbicos (aproximadamente 15.5 pies x 16 pies x 8 pies de altura hasta el techo) de área libre. Use nebulizadores adicionales para habitaciones aisladas o cuando la libre circulación de la niebla no esté asegurada.

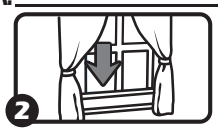
PREPARACIÓN:

NO use más de un nebulizador por habitación. **NO** lo use en espacios pequeños, cerrados, como closets y gabinetes, ni debajo de cubiertas de cocina ni mesas. No lo use en habitaciones cuyo tamaño sea de 5 pies x 5 pies o menor. En cambio, permita que la niebla entre desde otras habitaciones.

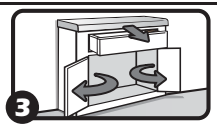
Apague TODAS las fuentes de ignición como llamas piloto (cierre las válvulas del gas), otras fuentes de fuego y aparatos eléctricos en funcionamiento que tengan ciclo de encendido y apagado (como por ejemplo, refrigeradores, termostatos, etc.). Llame a su empresa de servicio de gas o compañía administradora si necesita ayuda con las llamas piloto.

ANTES DE APLICAR LA NIEBLA:

1. Retire o cubra los alimentos, platos, utensilios, superficies y equipo de preparación de alimentos que se encuentren expuestos. Apague los ventiladores y los aparatos de aire acondicionado.



2. Cierre las puertas y ventanas exteriores. Retire las mascotas y las aves pero deje la cama de la mascota porque es uno de los principales escondites de las pulgas y se la debe tratar para lograr los mejores resultados. No es necesario eliminar la cama de la mascota después del tratamiento. Cubra o retire las peceras.



3. Deje las alfombras, cortinados y muebles tapizados. Este producto no daña los muebles si se usa según las indicaciones. Abra las puertas interiores de los closets y gabinetes de las zonas a tratar.

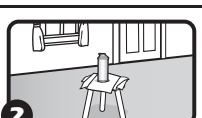
4. Cubra los pisos de madera encerados y los muebles encerados en la zona alrededor del nebulizador. Se pueden usar periódicos.

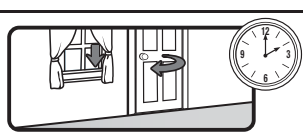
Para un control más eficaz de los insectos nocivos de almacenamiento, abra todas las puertas y cajones de los armarios para que penetre mejor la niebla. Retire todos los alimentos infestados y tírelos a la basura en el exterior. **Para el control de pulgas y garrapatas,** limpie completamente con la aspiradora todas las alfombras y muebles tapizados, alrededor de los bordes inferiores, debajo de los muebles y dentro de los closets. Coloque la bolsa de la aspiradora en una bolsa y tírela a la basura en el exterior. Limpie con un trapeador todas las superficies de suelo firme.

LEA TODAS LAS INSTRUCCIONES Y PRECAUCIONES ANTES DE USAR.

PARA COMENZAR A APLICAR LA NIEBLA:

1. AGITE BIEN EL NEBULIZADOR ANTES DE USAR: Sostenga la lata con el brazo extendido con la parte superior apuntando lejos del rostro y de los ojos. Presione con el dedo hasta que el mecanismo quede trabado. Eso hará que comience a funcionar el nebulizador.





2. Coloque la lata en posición vertical sobre una mesa, pedestal, etc. (hasta 30 pulgadas de altura en el centro de la zona) y coloque varias capas de periódicos debajo de la lata para evitar que se estropee la superficie. Aplique el tratamiento en toda la casa, usando varias latas en las casas con más de un piso y muchas habitaciones. Salga del edificio de inmediato.

NO VUELVA A ENTRAR AL EDIFICIO POR UN PERÍODO DE DOS HORAS:

Después de dos horas, abra todas las puertas y ventanas, encienda el aire acondicionado y/o los ventiladores y ventile durante 30 minutos antes de volver a ocupar. Si se usan nebulizadores adicionales para habitaciones grandes o cuando la libre circulación de la niebla no esté asegurada, incremente el tiempo de ventilación como corresponde.

HOT SHOT®

RIESGOS FÍSICOS O QUÍMICOS

Contenido bajo presión. No lo use ni guarde cerca de una fuente de calor ni del fuego. No perfore ni incinere el envase. La exposición a temperaturas superiores a 130ºF puede causar explosiones. **Este producto contiene un ingrediente altamente inflamable. Puede provocar un incendio o una explosión si no se usa adecuadamente. Siga cuidadosamente las instrucciones que se indican en esta etiqueta en "Modo de empleo."**

Highly Flammable Ingredient

Ingrediente Altamente Inflamable

NOTA: El comprador asume toda la responsabilidad para seguridad y uso que no esté de acuerdo con las instrucciones.
